Giovanna Fotia

Giovanna Fotia holds a BA in International Sciences and European Institutions as well as a MA in International Relations. She is also trained in project management has a solid background in European Project Design and Management.

She has been working at “Luigi Sacco” University Hospital for four years as both Project Manager and Junior Expert. As Project Manager, she is in charge of coordinating the Laboratory of Clinical Microbiology, Virology and Bioemergencies Grants Office as well as Sacco activities in different EU-funded projects. In particular she has been coordinating the activities of three EU CBRN CoE Projects (Project 6, 7 and 13) and she is currently Project Manager for “Luigi Sacco” University Hospital in EU CBRN CoE Project 46.

Moreover, she is responsible for the identification of possible new grants and calls for proposals, as well as for the drafting of project proposals within the framework of different international and European programs (such as EU CBRN CoE, EU Instrument for Stability and Peace, Horizon 2020, EDCTP, etc.). As a Junior Expert, she is offering a technical contribution to the department activities concerning the international and European legal framework. In particular, she has been working on international environmental law and arms control law. For example, she has worked on the international legal system of restraints on biological weapons and their implementation at the national level.

She is fluent in English and Spanish, she has a good command of French and a beginner level in Arabic.
