Luca Vitali

Luca Vitali, holds a BA in International Sciences and European Institutions at University of Milan, Italy and currently attends a MA in International Relations. He is also trained in project management has a solid background in European Project Design and Management. He is trainer of International Humanitarian Law for the Italian Red Cross.

He has been working at “Luigi Sacco” University Hospital for three years as both Project Manager and Junior Expert. He has contributed to all the management activities of the Laboratory of Clinical Microbiology, Virology and Bioemergencies within three EU CBRN CoE Projects (Project 6, 7 and 13), and EU/UNICRI Project C4 “Biosafety and biosecurity risk management for Georgia”.

He is currently Project Manager for “Luigi Sacco” University Hospital in EU CBRN CoE Project 46.

Moreover, he is involved in the identification of possible new grants and calls for proposals, as well as to the design of new proposals relevant to biosafety and biosecurity within different European programs (e.g. EU CBRN CoE, EU Instrument for Stability and Peace, Horizon 2020, EDCTP). As a Junior Expert, he takes care of research and analysis in the field of international guidelines and policies on biorisk management as well as the development of country profiles. He is currently engaged in research activities on the national implementation of the WHO International Health Regulations.
