Sara Giordana Rimoldi

Sara Giordana Rimoldi owns a B.A. Degree in Biology and a M.A. Degree in Microbiology both earned at the University of Milan. She also holds a Master in Bioinformation Science.

In 2002 she won a scholarship from Milan General Hospital, thanks to which she worked about Neuro-glial differentiation of human bone marrow stem cells in vitro, together with Professor Soligo.

She currently works at Luigi Sacco University Hospital as Microbiologist (Laboratory of Clinical Microbiology, Virology and Bioemergencies of Prof. Maria Rita Gismondo) since 2006, and she also performs the duties of tutor in Microbiology at the University of Milan, Faculty of Medicine, since 2010. From 2014 she is Head of bacteriology and hospital-acquired infections.

In the past, she worked as Laboratory Analysis Biologist at Hospital Santa Rita in Milan.

She is specialized in Molecular Biology and Microbiology techniques, and DNA sequencing applications .

Nonetheless, her pre-clinical skills consist of Management and Coordination of lab-technician team, Responsibility for budget, timeline adherence and data quality control, On-site visits (selection to closure and data-bases locking).

She has been publishing works and papers since 2005, about different topics such as Norovirus, pediatric gastrointestinal infections, HIV-HPV, meningitis diagnosis, MRSA in Pig farming.

Since 2007 she has been participating to several congresses as speaker, at Carlo Borromeo Hospital, University of Milan, Luigi Sacco University Hospital, SIMAST National Congress in Florence, at AMCLI Congresses, and at the International Chlamidia tracomatis Infection conference.

She participated to international meetings abroad as well, like the Eurogin Congress in Montecarlo and the XX ECCMID Vienna Congress.

She has a fluent command of English and a basic knowledge of Spanish.
