Davide Mileto

Davide Mileto holds the Microbiology and Virology Specialization School at University of Milan and the Master degree in Biology at University of Perugia. Currently he works as a Microbiologist at Laboratory of Clinical Microbiology, Virology and Bioemergencies (CLIMVIB) of “L. Sacco” Teaching Hospital in Milan and, at the same time, he works as a researcher for the University of Milan within the framework of the European research project entitled: “EDCTP-CSAEbola-337-ENhancing individual and institutional infectious Disease Outbreaks ResponSe capacities of healthcare professionals to mitigate infectious Emergencies in the Northern Uganda region “ENDORSE””. In September 2016, Davide took part at “Introduction to Biosafety Level 4 Facilities” training course at BSL-4 National Training Center of NIH (National Institutes of Health) Bethesda, USA. From 2014, he is involved in several International Projects in framework of Biosafety and Biosecurity as a Junior Expert: CBRN CoE Project 3, CBRN CoE Project 6, CBRN Project 7 and EU/UNICRI Project C4. In 2011, Davide Mileto obtained a research fellow with the title: “Characterization of HIV tropism for the co-receptors CCR5 and CXCR4 in PBMCs in individuals of different clinical condition” at University of Padua. Davide is also a study group member of EUCOHIV, European BioSafety Association (EBSA) and *Associazine Microbiologi Clinici Italiani* (AMCLI).
